Ocean Tomo 300™ Patent Index Now Available To Investors

Claymore/Ocean Tomo Patent ETF Introduced on the American Stock Exchange

CHICAGO, December 15, 2006 – Ocean Tomo, LLC, the Chicago-based provider of diversified intellectual property-related services, announced the Ocean Tomo 300™ Patent Index is now available to investors through Claymore Securities' new exchange-traded fund, the Claymore/Ocean Tomo Patent ETF. The new ETF will begin trading on the American Stock Exchange today, under the symbol **OTP**.

“Intellectual property today is an inefficient market, and the Index presents a meaningful opportunity for investors,” said Keith Cardoza, Managing Director of Ocean Tomo, and Chief Investment Officer of Ocean Tomo Asset Management. “Diversified across all sectors, styles, and capitalizations, the Index, through the Claymore/Ocean Tomo Patent ETF, presents a unique and powerful way for sophisticated investors to enhance their portfolio.”

About the Ocean Tomo 300™ Patent Index

Recognized by The American Stock Exchange (www.amex.com) as “the first major, broad-based market equity index to be launched in 35 years,” the Ocean Tomo 300™ Patent Index is a diversified market-weighted index of 300 companies that own the most valuable patents relative

to their book value. Over a 10-year time period ending October 2006, the Ocean Tomo 300™ Patent Index outperformed the S&P 500 by more than 300 basis points annualized. The Index selection methodology identifies six companies within each of 50 size and style groups, reflecting a broad spectrum of market capitalizations and investment styles, including value, relative value, blend, growth at a reasonable price (GARP) and growth by decile, that have the highest ratio of patent value to book value.

The analytical engine used to evaluate the value of each company's patent portfolio is Ocean Tomo's PatentRatings™ software, which calculates the relative attractiveness of the more than four million patents issued by the U.S. Patent and Trademark Office since 1983, and which is widely recognized by the intellectual property valuation industry. Further details on the Index, its methodology, as well as a complete list companies in the Index and other materials are available at www.OceanTomoIndexes.com.

The Ocean Tomo 300™ Patent Index is patent-pending and was created by and is a trademark of Ocean Tomo Capital, LLC. Ocean Tomo's PatentRatings™ software is protected by U.S. Patent Number 6,556,992.

Ocean Tomo, LLC has granted Claymore Advisors the rights to license the Ocean Tomo 300™ Patent Index for the creation of the Claymore/Ocean Tomo Patent ETF (Amex: OTP). The Fund seeks investment results that correspond generally to the performance, before the Fund's fees and expenses, to the Ocean Tomo 300™ Patent Index. Claymore Securities, Inc. acts as the distribution agent for the Fund. Neither Claymore Advisors nor Claymore Securities has any involvement with the ongoing administration of the Index.
